

Portable 7 Stage HEPA Filtration System

WHY CHOOSE ZEPHYR?

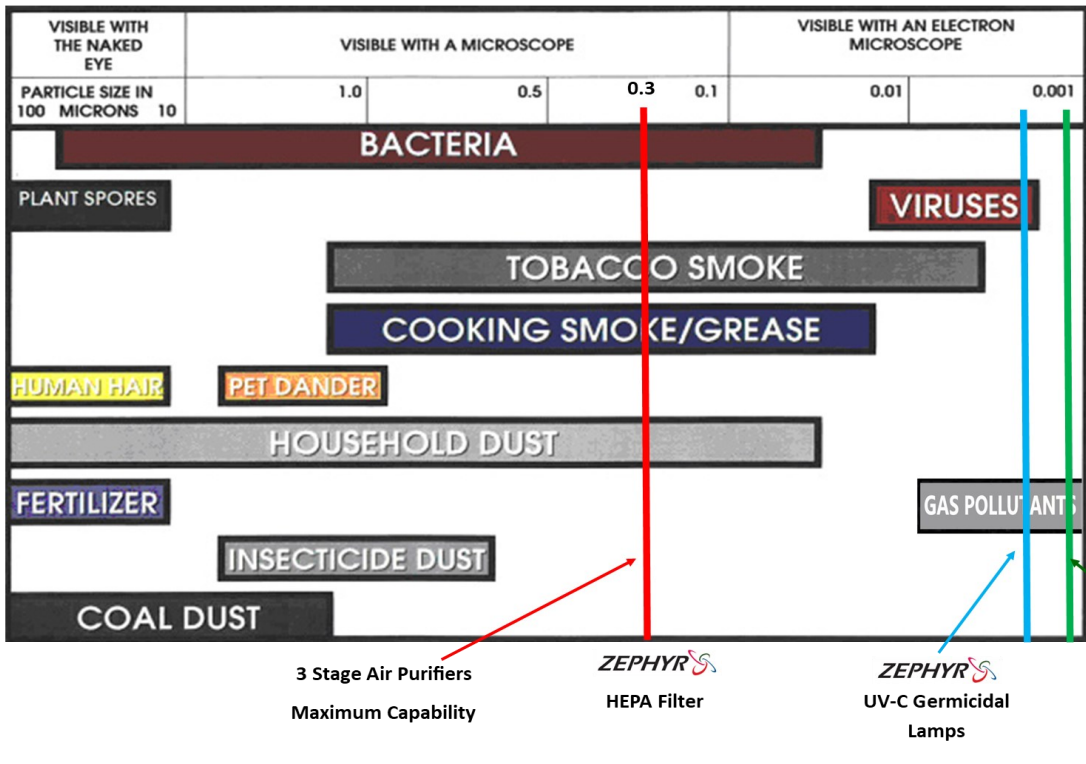

- ZEPHYR Air Purifiers has been providing clean air solutions for residential, commercial, healthcare, schools, hospitality and government establishments throughout North America since 2009.
- The only air purifier on the market which uses 7 stages of air filtration.
- Provides up to 2 air changes per hour in spaces up to 1500ft²
- Industry leading 15 year warranty.
- Industry leading use of sensors which read your indoor air quality in real time for both VOC's (Chemicals/gases) and particulates (dust/allergens).
- Auto Feature which uses smart technology and the sensors real time air quality readings to control the machines functions on its own.

7 STAGE FILTRATION

7 stages of filtration is much more effective than 3 or 4 stage filtration systems which many products use; because certain pollutants require specific filtration technology to either filter or destroy them. The ZEPHYR XXL uses 7 stages to filter and destroy many harmful pollutants other products cannot. Such as viruses, germs, bacteria, mold, bio-aerosols, chemicals and gases.
